These are 2 independent islands connected by a natural, sand bar. Water is crystal clear and gem green in color. Sun bathing in Ross & Smith Islands is a wonderful experience. During high tide, the sand bar disappears leaving a trail of water between the two islands and during low tide the sand bar appears again making the islands look majestic! There is a Marine Sanctuary on the island which makes it an ideal place for spotting beautiful coral reefs and colorful species from the underwater. The beach is surrounded by tropical forests and is a preferred place for trekking and trail hiking by many tourists. One can also opt for activities like Scuba Diving & Snorkeling. The clear blue waters add a touch of cleanliness to the whole experience. Ross & Smith islands are home to the Olive Ridley turtles which means, being the right place at the right time, one can even witness the turtle nesting!
